**RE: TST EVALUATION OF PLAYTECH RNG**

This Certification Letter pertains to Technical Systems Testing (TST)'s evaluation of the Playtech Cyprus Limited (Playtech) Casino System Random Number Generator (RNG).

Subject to the inherent confines of a Laboratory Evaluation, TST found that the Playtech RNG tested by TST met or exceeded:

1. Playtech's technical specifications, and
2. Generally accepted industry standards for highly regulated jurisdictions worldwide.

TST has verified through mathematical and statistical analysis, within a ninety-five percent (95.0%) confidence level (this is a documented level of confidence for such statistical analysis), that the Playtech RNG distributes numbers with sufficient non-predictably, fair distribution and lack of bias to particular outcomes. The evaluation has shown that the Playtech RNG produces a statistically acceptable source of random numbers for the following Casino applications / games:

TST's evaluation of the Playtech RNG was based on specific information and materials to be outlined within the Final Report (including, but not limited to, documentation, correspondence, source code, software and hardware), as submitted to TST throughout the duration of the evaluation. For verification purposes, TST has maintained a control version (or the means of verifying the control version) of all information and materials as listed above.

Assuring you of our best attention at all times.

Yours sincerely,

Mr. Noah Turner  
 Laboratory Manager
